

The No Call List has been one of the most important issues the government has developed. I do not know of anyone who likes to receive solicitation calls at home at any time. I do not. I never want to have a telemarketer call me again. I know our President's campaign receive huge amounts of money from the banking industry, but just once I'd like to see an office holder not influenced by that. Don't give in to big business! Let's go back to government of the people, by the people, for the people.
